

Social-Eyez

Augmented Reality contact lenses
for enhanced social interactions.

Designed to assist in face to face social situations by providing users with a wealth of information about their conversation partner as well as tools to enable them to use that data to maximum effect.

Manage relationships.

Easily keep in mind who you're closest to, or seek to build stronger relationships with those you haven't talked to in a while.

Scan and analyze.

Quickly scan and analyze objects within a 15 foot radius to gain valuable insights about them.

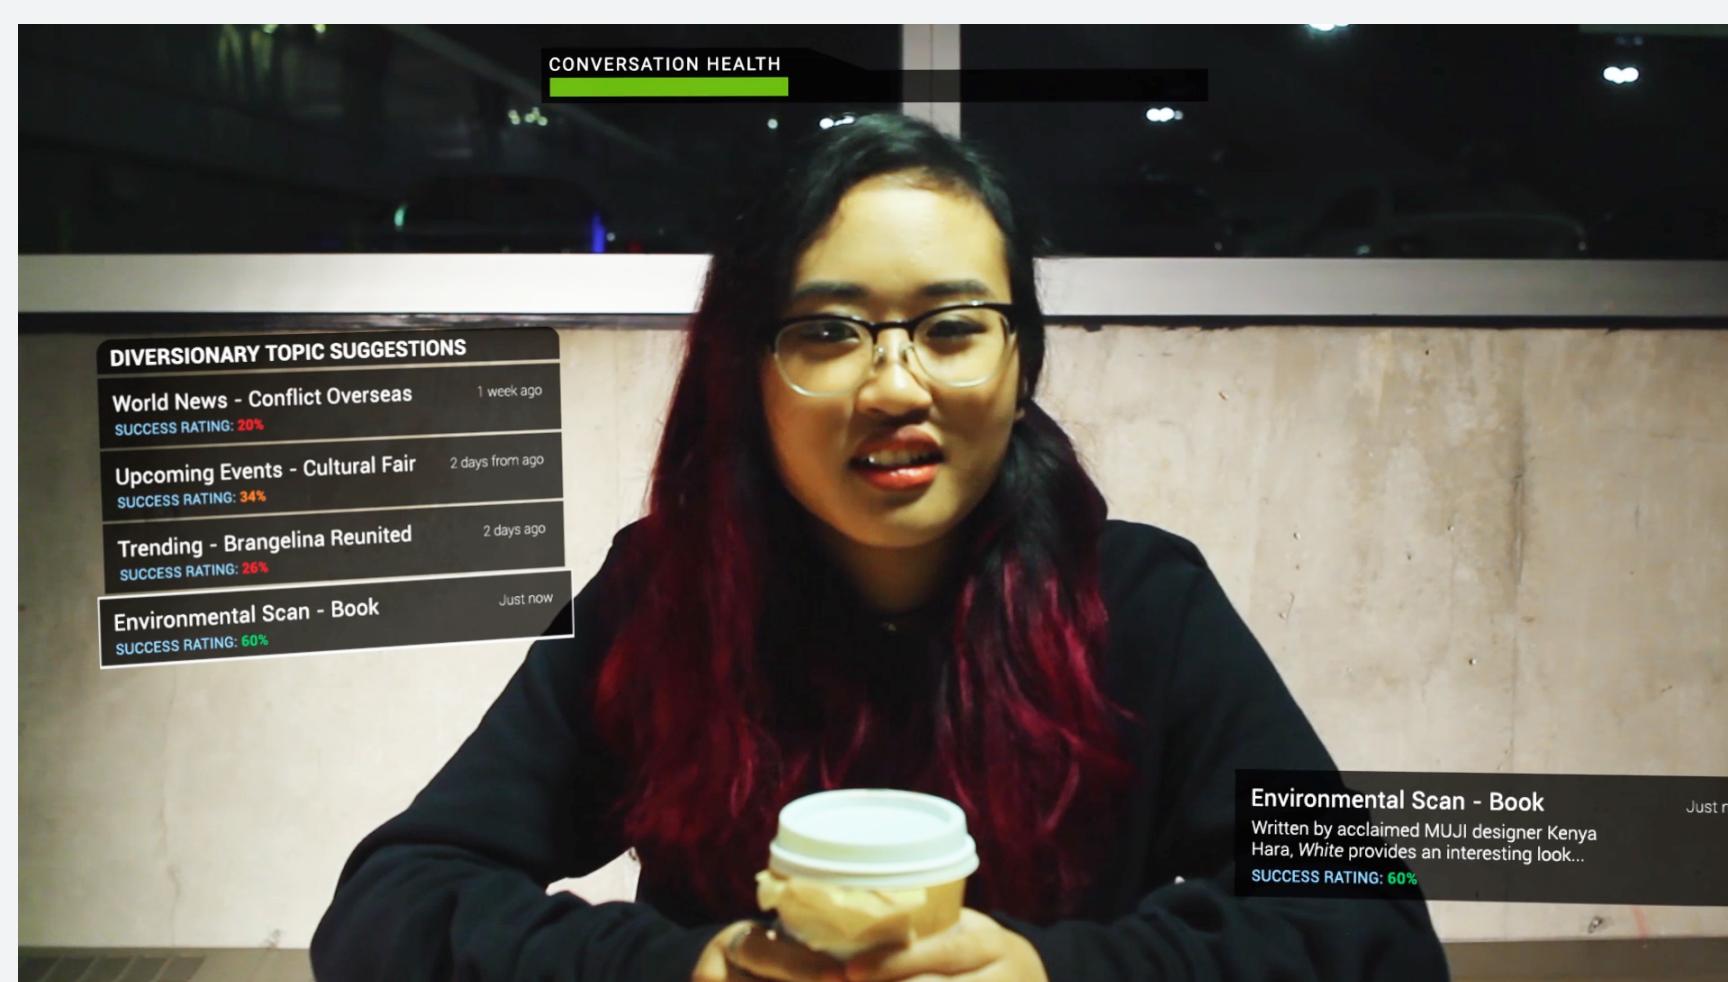

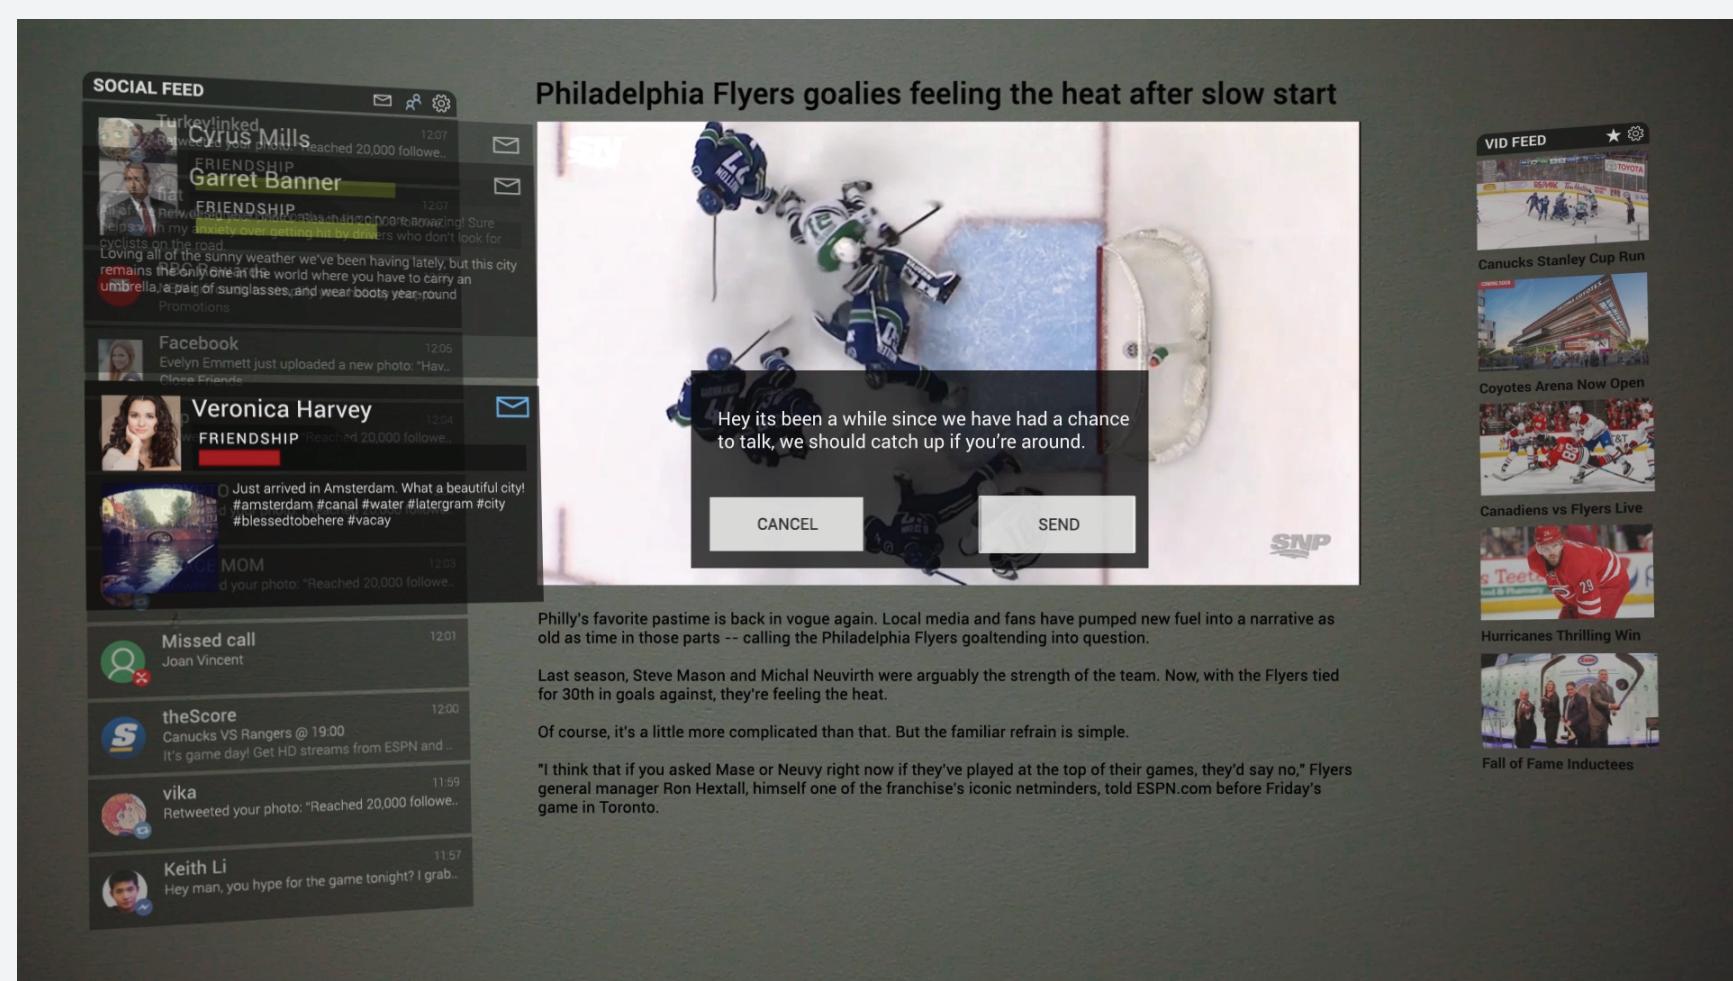

Never miss a moment.

Automatically set reminders for events, meetings, and other important data in your notifications feed to keep up to date with friends and family.

All of your feeds at a glance.

Skim like never before - Social-Eyez lets you filter through your social feeds at breakneck speeds to stay connected 24/7.

Interact flawlessly.

Someone's reaction or reply have you stumbling for an answer? Gauge how well your current conversations are going in real-time with the Conversation Meter and always have a response ready at your eyeballs with the Suggestions Panel.

Jump right into conversation.

Pull up the social feeds of everyone around you and get a glimpse of their activities and interests. No longer do conversations have to begin with an obligatory "Hello!" or "How are you?" - get right to the point in an instant.
